WELCOME TO THE NYSF

Congratulations on your selection to attend the National Youth Science Forum (NYSF) 2024 Year 12 Program, and welcome to the NYSF community!

We have a network of over 15,000 alumni around Australia and the world that have attended our NYSF Year 12 Program. In 2024 we are celebrating 40 years of NYSF!

This handbook will help you prepare for the NYSF Year 12 Program. It is also a valuable reference for your family members, so please encourage them to read it.

We encourage you to keep up to date with important information by regularly checking NYSF emails and staying active on the NYSF app (details will be advised closer to the start of session).

A central [2024 Information for Participants page on the NYSF website](#) will be updated with resources throughout the year.

CONTACTING THE NYSF

Email	nysf@nysf.edu.au
Website	www.nysf.edu.au
Postal Address	Leonard Huxley Building 56 Mills Road The Australian National University Acton ACT 2601
Facebook	https://www.facebook.com/NYSFoz
Twitter/X	@NYSFoz
Instagram	@NYSFoz #nysfoz
LinkedIn	https://www.linkedin.com/school/national-youth-science-forum/ - add us to your 'Education' section to become an NYSF alum!

During January, the NYSF will have duty phones. Contact details will be provided via our communications and the NYSF app.

Duty phones are for emergency contact only. Non-urgent enquiries during January should be emailed to nysf@nysf.edu.au.

Duty phones will be available both during and before/after hours. If the phone is not answered, please leave a message and a representative of the NYSF will call you back as soon as they can.

Code of Conduct

We strive to make the NYSF a safe, inclusive community for all students, staff and volunteers.

For that reason, it's essential that you adhere to the NYSF Code of Conduct and Procedures while participating in NYSF events.

Students sign their commitment to the NYSF Code of Conduct and Procedures as part of the Participant and Parent/Guardian Agreement.

If students breach the Code of Conduct, they may have their NYSF experience discontinued and be refused enrolment in future NYSF programs and events.

BEFORE THE PROGRAM

Checklist

CHECKLIST	TASK
Ongoing	Check your email - we regularly send out emails to keep you up to date with important information related to the NYSF Year 12 Program. We will include your parents/guardians in any email communications as well.
Ongoing	Keep your contact details, health and dietary information up to date, informing NYSF of any changes by emailing nysf@nysf.edu.au .
May - October 2023	If you are not self-funding, agree on payment of fees with your Rotary Club or other sponsors. Invoices are sent directly to you and your family. You and your family are responsible for obtaining reimbursement from your Rotary Club or other sponsors.
By 1 November 2023	Complete your program registration: <ul style="list-style-type: none"> • Accept your offer • Complete the Participant & Parent/Guardian Program Agreement, which is available electronically once you accept your offer. • Have your parent/guardian complete the Participant & Parent/Guardian Program Agreement, which will be emailed to them directly.
October - November 2023	We encourage you to attend a Welcome Event in your area to find out more about the NYSF Year 12 Program and to connect with other participants in your local area. These events are run by Rotary volunteers, more information about these events will be emailed to you in due course by the NYSF. If you can't make a welcome event in person, you can attend an online NYSF Welcome event later in the year.
1 November 2023	Fee due date - Invoices will be sent to you once you complete your Participant and Parent/Guardian Agreement. Please ensure your fee is paid in full by 1 November 2023 to keep your place in the program.
20 November 2023	Late Withdrawal Deadline - refunds are generally not available for withdrawals from the Program after this date. Please refer to your Participant and Parent/Guardian Agreement for withdrawal terms and conditions.
December 2023	Download the NYSF app - this is where you can view the program schedule, find out about events and chat with fellow NYSFers.
December 2023	Contact your buddy - you will be provided with their details closer to January.

How we communicate with you

All critical information related to the NYSF Year 12 Program will be communicated via email. Please do not rely on NYSF social media or any other communication platform we may use as your only source of information.

The NYSF will communicate with you primarily by email leading up to and after the NYSF Year 12 Program. Please ensure that the email address and mobile number you provided in your application are correct and contact the NYSF at programs@nysf.edu.au if you need to update these details.

You should check your email at least once every 2-3 days in the lead-up to January.

Closer to January, students can communicate with each other via an officially endorsed platform that we will announce soon.

Please do not set up or use alternate social media group chats during the NYSF Year 12 Program, as the NYSF team is unable to monitor any unofficial groups or chats.

We carefully monitor all of our official social media channels for any inappropriate behaviour.

If you have a question or problem, the best way to get in touch with NYSF Staff is by emailing programs@nysf.edu.au. Please do not use social media channels to message NYSF staff.

Welcome Events

Your involvement with the NYSF begins with a Welcome Event in November, on a date organised by your Rotary District Chair.

At this event, you'll meet NYSF volunteers from your Rotary District, other students from your district, and members of the Student Staff team from the NYSF.

You'll learn about the activities of the NYSF, and you and your parents can ask as many questions as you like.

Our top priority is the health and safety of all our staff, participants and volunteers. If you are unwell, you should not attend an in-person event.

You will be advised if you can bring a guest (such as your parent/guardian, science teacher, or sibling). We ask that attendees dress professionally and follow all directions provided by the organiser to keep all attendees safe and well.

What if you can't attend a Welcome Event?

While Welcome Events are highly recommended, they are not mandatory. We understand that it's not possible for all students to attend the event in their Rotary District, whether that's because you're not able to travel to the event, you are unwell or because of conflicting commitments.

If you're not able to attend a Welcome Event organised by Rotary, rest assured that the NYSF sends lots of official program updates and holds an online orientation event in November/December.

Engaging with other NYSFers

Before the 2024 NYSF Year 12 Program, you'll be in contact with:

Your buddy

You will be assigned a buddy, who will be another student in the same NYSF Year 12 Session. The purpose of the buddy system is so you can get to know someone with a similar passion for STEM before the NYSF program starts.

You will support each other on the program by checking in and making sure your buddy is with you when they are meant to be.

You can find your buddy on the digital event platform!

Your group Student Staff Volunteer

You'll be assigned a floor group for the NYSF Year 12 Program. These groups will form the basis of your social interactions during the program and will be supported by Student Staff volunteers, "Staffies", who will organise group catch-ups throughout the program.

Your Floor Group Staffies will reach out to you in December via the event platform.

NYSF 2024 Year 12 Program and other events

If you've been selected for the NYSF, there is also a chance you have been selected for other programs as well, such as the Australian Science Olympiad Summer School or the National Mathematics Summer School.

Some of these programs may overlap with the scheduled NYSF Year 12 Program, and you may need to make a decision about which program you wish to attend.

Please read the refund policy in the Parent/Guardian agreement.

Withdrawals and refunds

If something unforeseeable happens which prevents you from attending the 2024 NYSF Year 12 Program, please contact the NYSF immediately to discuss the matter.

Be sure to also consult with your Rotary Club or other sponsors if they are contributing to your program fee.

If you are supported by a Rotary Club, and you choose to withdraw from the NYSF, your Rotary Club will likely expect its contribution returned.

Please refer to your NYSF Participant and Parent/Guardian Agreement for detailed information regarding withdrawals and refunds.

DURING THE PROGRAM

Program outline*

The 2024 NYSF Year 12 Program is incredibly diverse and exciting! Every year, we include many new speakers and events to keep the program highly valuable and rewarding. Here's an early sneak peak at what you'll experience in January*.

	FRIDAY	SATURDAY	SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
MORNING		Student Staff led activities	Networking Brunch	STEM Visit	Careers Day	STEM Visit	Specialist Lectures	STEM Visit	Students depart 8:00am - 11:00am
AFTERNOON	Students arrive 8:30am - 6:00pm	Opening Event	SciComm	STEM Visit	Careers Day	STEM Visit	Online Careers Day	Closing Event	
EVENING		Evening activity	Evening activity	Free time	Alumni Dinner	Great Debate	Disco/Chill	Concert	

...and remember, your time at NYSF does not end in January! You become part of the NYSF Connect Alumni Program!

*Program is subject to change. Full program and speakers are released regularly as the event draws closer - watch your email!

Travel to and from your Session

Travel to and from the NYSF Year 12 Program is the responsibility of students and families. The NYSF will provide shuttle buses from Brisbane International and Canberra Airports, major trains and bus stations to your accommodation. If you choose to drive to your session, please note that there is no parking at the accommodation, and any payment required for parking will be your responsibility. Using your car during your stay is strictly prohibited. The NYSF takes no responsibility for the security of vehicles.

All transport to visits during the Program is organised by the NYSF.

Depending on which session you are allocated to, you will need to arrive and depart on the following dates:

CANBERRA

Arrive: Friday, 5 January 2024

Depart: Saturday, 13 January 2024

BRISBANE

Arrive: Friday, 12 January 2024

Depart: Saturday, 20 January 2024

You should aim to arrive between 12 pm and 5 pm if possible. Your departure time at the end of your session can be anytime between 8 a.m. and 12 p.m., but please don't hesitate to get in touch with us if your travel arrangements cannot fit into the timeframes detailed.

Once your place in the program is confirmed, we encourage you to book your travel. Please do not email your travel details. The NYSF team will collect all travel information via an online registration form from students and families starting in September. Please keep an eye on your emails for further information.

What to bring on Session

Luggage

A packing list is detailed on the next page. You will have access to washing facilities, however, make sure you pack enough to get through at least a week.

If you travel by plane or public transport to your session, you must adhere to any baggage limits.

What's provided

On arrival, you will receive an NYSF backpack. Bring along something readily recognisable to tie to the strap of your NYSF bag for identification, such as a ribbon or a bandana. It is easy to lose your bag in a pile of other identical bags!

All bedding, including a pillow, are provided at your university residence. Towels for showering are also provided, but you might like to bring a spare.

Bring your musical instruments!

We would love for you to bring musical instruments! If you play a musical instrument, please bring it along, regardless of your ability. You will find musicians are in demand throughout the NYSF. Towards the end of the session, a concert is held and all participants are invited to perform, so think about bringing along anything you need to participate.

If you bring a musical instrument that will not fit into your baggage, like a tuba or a cello, then ask the airline staff or the bus company for their advice prior to your departure. The NYSF chartered coaches should have space available for larger instruments.

Bringing an instrument is optional, and we recommend you use an Air Tag to ensure it arrives safely and consider travel insurance. The NYSF won't pay excess baggage charges to bring instruments to session and is not responsible for any loss or damage.

Suggested packing list

	Clothes		Toiletries
	Shorts & t-shirts		Toothbrush/toothpaste
	Underwear/socks		Soap, shampoo and conditioner
	Smarter attire for Opening event and one dinner		Medications
	Hat with good sun protection		Sanitary items
	Jumper or tracksuit top		Insect repellent
	Long pants (may be required for lab visits Eg. Jeans/track/cargo pants)		Sunscreen/lip balm
	Long sleeved t-shirts (may be required for lab visits)		Tissues
	Sleep wear		Bag for items needing to be washed
	Neat shoes (for formal occasions)		Towel for showering
	Casual shoes, sneakers or runners (closed in shoes)		
	Clothes for disco event		
	Bathers/towel		
Other items			
	Mobile phone and charger		Chargers for any other electronics
	Travel tickets		Notepad/pen
	Medicare card or number		Musical instrument/sheet music (optional)
	ATM card		No more than \$200 in cash
	Photo ID (Driver's licence or Student ID is fine)		
You'll be given an NYSF t-shirt and backpack on arrival			

Dress code

As you will likely be attending lab visits during your Session, you should ensure that you dress appropriately. In a lab environment, exposed skin can be a risk, so you will need bring long-sleeved clothing, long pants, and enclosed shoes that cover the top of the feet. Sneakers or gym shoes are suitable as long as they have no holes or mesh in them. Open shoes, thongs, sandals, or ballet flats are unacceptable in laboratories for safety reasons. The NYSF pre-visit information will be sure to let you know what you need for each particular visit. Please read this information carefully because you may not be able to participate if you are inappropriately dressed.

There may be time between lab visits where you will likely be outside. As it may be hot during the days on Session you should bring sunscreen and a hat. As all activities will be run in line with COVID-safe rules, we recommend you bring a face mask and hand sanitiser. NYSF volunteers will have sunscreen and hand sanitiser but bringing your own will also provide a back-up.

It is important during all sessions to ensure you are dressed appropriately. The NYSF's primary aim is to showcase the wide variety of STEM opportunities in education and careers, but it is also a great way to learn more about interacting and networking at a professional level to ensure you get the most out of the program.

Personal belongings

Do not carry more cash or valuables than you need to. Bringing your phone if you have one to keep in contact with home and access your online NYSF Year 12 Program. Any items you bring to in-person events are your responsibility.

Accommodation

Your accommodation will be at a university residence at either the Australian National University (for Session A) or the University of Queensland (for Session B). Each room has a bed, wardrobe, desk, sink and chair. On each floor, there are communal toilets and showers. There are also plenty of spaces to socialise.

A condition of use of the university residences is that the rooms are to be left as they are found. Any damage to or loss of articles, including room keys, will be charged to the NYSF, and this charge will be passed on to you.

Upon your arrival, you'll be provided with a key or pass for your room, which you should always keep on you. Ensure you return your key before you go home, or you may be charged for a replacement, which can cost upwards of \$100 per key. You should always lock your room when you are out and overnight.

For your own safety, do not leave your floor after lights out. If you need something at night, please feel free to see your Floor Staff member or Rotary volunteers.

The residences provide the majority of meals provided through the Program. We require all dietary requirements early so that we can inform the catering team well in advance and they can prepare healthy, tasty meals for all participants.

STEM visits and activities

In 2024, you will be on session for 9 days (including travel days). You can express a preference for either Canberra or Brisbane, however, we may ask you to attend a different location from the one you selected to ensure we have equal numbers on each session.

You will be allocated to visits based on the STEM preferences indicated in your application ahead of your arrival at your session. We endeavour to provide students with visits aligned with their top three preferences; however, with so many students in the program, it is not always possible.

Groups are not generally able to be changed, however, you may be able to organise to swap with another student. If you do arrange to swap, please let us know so we can correctly allocate you to the appropriate visits and let our hosts know.

To give you an idea of what sorts of visits you can expect, we have listed some examples of both Canberra and Brisbane based visits below:

Brisbane

- Australian Institute for Bioengineering and Nanotechnology
- UQ Centre for Advanced Imaging
- Queensland University of Technology
- Integrated Pathology Learning Centre
- Centre for Microscopy and Microanalysis
- Quantum Optics Lab
- Griffith University

Canberra

- ANU Earth Sciences
- Research School of Astronomy and Astrophysics
- ANU Biology
- ANU Chemistry
- ADF Drone Racing
- The Fenner School of the Environment
- Mulligans Flat

Health and Safety information

The health and safety of participants, volunteers, and staff is the NYSF's top priority.

You must adhere to any host rules when onsite at a STEM visit or at the program residence. If you don't observe the rules or heed any instructions from our hosts, you may be asked to leave the visit.

We strive to ensure that our students are safe at all times. Our staff and volunteers are trained in basic first aid and CPR, and our Rotary volunteers will carry first aid kits for dealing with general ailments, such as headaches or cuts and bruises.

You can read our COVID-19 policy [here](#). Please note that the program residence may require positive COVID-19 cases to isolate from other residents.

Bullying and harassment

The NYSF has a strict zero-tolerance policy to bullying and harassment. If at any time, while you're in attendance at any NYSF program, you feel bullied or uncomfortable due to the behaviour of others, contact a member of staff immediately. Our policy applies to all NYSF events. The NYSF Bullying and Harassment policy can be viewed at www.nysf.edu.au/policies.

Child protection

The NYSF is committed to protecting the safety and well-being of all students and volunteers who participate in our programs. All of our staff and volunteers have undergone working with children checks in the state or territory where they will be working. In addition, we work with our volunteers to educate them on our policies and procedures to ensure that they are the appropriate people to be undertaking these roles.

Our Child Safety policy can be viewed here at www.nysf.edu.au/policies.

If you have any concerns before, during or after the 2024 NYSF Year 12 Program, you can contact the NYSF in the first instance by emailing programs@nysf.edu.au.

Any communications regarding any child safety matters will be kept confidential.

MEDICATIONS

If you need to take medication/s during the day, please make sure you bring them with you to your Session.

If you experience severe allergic reactions, asthma, or other conditions which may be triggered during a visit, please ensure you bring any required treatments, such as an EpiPen or inhaler, and if you have a Medic Alert bracelet or similar, please wear it.

FIRST AID AND MEDICAL CARE

All staff and volunteers involved with the NYSF Year 12 Program have first aid and CPR training and know where to refer students who require medical attention.

In most cases, responsibility for providing first aid during the Program rests with our Rotary volunteers, and they should be your first stop if you're feeling unwell or need basic first aid. Volunteers and NYSF staff are able to provide paracetamol with permission (via your student/family agreement with NYSF).

The detailed medical information you provide to the NYSF will be shared with the Rotary and Student Staff volunteers for your own safety.

Because your health and safety are our priority, staff will not hesitate to call an ambulance if needed. If an ambulance is required, you will need to meet all the costs. You must also pay for any medication prescribed at the time of collection from a pharmacy. If you require medical care beyond basic first aid provided by NYSF staff or volunteers, the NYSF will inform your parent/guardian.

However, if you are over 16 years old, we will not disclose the nature of your illness or injury without your consent.

DIETARY REQUIREMENTS

If you have any dietary requirements, please make sure they are listed on your NYSF registration details so we can inform the catering team. Your accommodation will have plenty of meal choices, and the catering team will cater for all dietary requirements.

Our STEM hosts do sometimes provide morning or afternoon tea, and we will ensure that your dietary requirements are passed on to them.

You'll have the chance to speak with the NYSF staff or volunteers when you arrive at your Session if you need to discuss anything further relating to your dietary requirements.

NYSF Staff on the program

The NYSF will have volunteer staff and NYSF corporate staff at residential sessions.

Our volunteer staff, which includes Rotary members and Student Staff (NYSF alumni), are there to ensure that visits run according to the schedule and that everyone gets to where they need to go and is safe throughout the visit.

There will be many opportunities to socialise during your session. NYSF Student Staff are there to ensure you get the most out of the NYSF Year 12 Program. Participating in social events where you can meet, network, have fun and chat about your STEM interests will assist with this.

If at any time you have any non-urgent questions about the NYSF Year 12 Program in general, your schedule or anything else relating to January, please feel free to contact us in the first instance at programs@nysf.edu.au.

NYSF Year 12 Program app

The NYSF Year 12 Program will have a dedicated app that you can install to give you access to the schedule and save your individual visits. The NYSF mobile app helps keep students and staff up to date on the schedule for each day of the program and chat with fellow NYSFers ahead of the program commencing. You will be advised how you can access the app closer to January.

Media

MEDIA CONSENT

The NYSF Participant and Parent/Guardian Agreement you and your parent/guardian signed includes a photo, website, and media consent section. We encourage you to familiarise yourself with these terms before attending the NYSF Year 12 Program.

If you agreed to this clause, you have provided consent for NYSF and its partners and supporters to use media content, including photographs, screenshots, quotes/comments, and/or video footage, produced by or taken of you at the NYSF Year 12 Program for educational or promotional purposes in any type of media, including on the NYSF website and other media channels, and on partner websites and media channels.

If you have not agreed to the media clause, please note that NYSF may still capture media content of you during the Year 12 Program, however, it will not be used by the NYSF.

You are welcome to opt in or out of being involved in any media opportunities at any point during your time at the NYSF Year 12 Program.

Please be aware that this does not mean that you can take photos or video/film others at the NYSF without their permission or use them for commercial purposes. If you have any media use or consent concerns, please contact the NYSF at programs@nysf.edu.au.

SOCIAL MEDIA

We encourage you to like and follow the NYSF social media channels if you have accounts, and don't already follow us:

- Facebook:
<https://www.facebook.com/NYSFoz>
- Instagram:
<https://www.instagram.com/nysfoz/>
- Twitter/X: <https://twitter.com/NYSFoz>
- LinkedIn:
<https://www.linkedin.com/school/national-youth-science-forum/>

Feel free to interact with us online before and during the NYSF Year 12 Program. You can use #NYSFoz to tag your posts, as well as our handles.

Please remember that you have also agreed to use common sense when posting content to social media, follow the NYSF Code of Conduct, and ensure that the content won't damage the reputation of NYSF or affiliated programs.

AFTER THE PROGRAM

Your experience at the NYSF wasn't only valuable to you - it's also valuable to everyone who helped get you to the NYSF, as well as anyone who attends the NYSF Year 12 Program after you! To share your experiences, we encourage you visit local schools and Rotary Clubs to tell others about your experience and encourage future applicants.

VISITING LOCAL ROTARY CLUBS

Your Rotary District and local Rotary Club would love to have you visit them, without the support of Rotary, many would not have been able to attend the NYSF Year 12 Program.

Your Rotary District Chair may ask you to speak with Rotary Clubs in your area. The ideal way to reach out to these clubs would be to offer to be a guest speaker at one of their regular meetings.

VISITING LOCAL SCHOOLS

We also encourage you to speak at schools in your local area - certainly your own school, and other schools nearby that may not have had students attend the NYSF Year 12 Program that year.

At the end of January, we'll provide you with some promotional material, including a PowerPoint presentation, that you can use to tell people about the benefits of the NYSF.

NYSF surveys

The NYSF is keen to hear about your experiences so we can continually improve.

You will be encouraged to fill out NYSF Surveys after the application and selection period, after any welcome and orientation events, before and after the NYSF Year 12 Program, and one and five years on as a valued NYSF Alum. Through these surveys, you can tell us about your experiences in the NYSF Year 12 Program, including what you expected before you came, what you did and learned, and what your future plans are. There will even be a chance for you to upload some photos to show us your experience!

NYSF also uses our Program App to collect ratings for individual sessions, we encourage you to give us as much feedback as possible.

We'll use your responses to help future applicants to the NYSF learn about the program, as well as help us run an even better NYSF Year 12 Program for coming years.

Student Staff Leadership Program

The Student Staff Leadership Program (SSLP), is a voluntary opportunity for NYSF alumni to continue their involvement with the NYSF.

Through the SSLP, participants will receive leadership training to equip them personally, professionally, and socially to take up their role as volunteer youth leaders in the NYSF Year 12 Program. Students can apply for the SSLP in the months following their Year 12 Program experience. Keep an eye on your emails after January for further information about this opportunity.

NYSF alumni - the fun continues

At the end of your NYSF Year 12 Program session, you are officially an alum of the NYSF! We hope you keep in touch with us and continue engaging with the NYSF. There will be numerous opportunities for your professional development and networking with other NYSF alumni.

You will periodically receive emails from us about upcoming opportunities, events and news about programs. We recommend you to also:

- JOIN the [NYSF/NSSS Alumni Facebook Group](#) after you have attended the NYSF Year 12 Program in January;
- FOLLOW the [NYSF LinkedIn page](#). If you don't have a LinkedIn profile already, you can create one and add your current school and the National Youth Science Forum (NYSF) to your 'Education' section. This will allow you to be recognised as an alum of the program to network with other NYSF alumni, search and connect with other NYSF alumni in your field of interest and be notified of NYSF and partner opportunities and events; and
- SUBSCRIBE to our [newsletter](#).

NYSF CONNECT ALUMNI PROGRAM

The NYSF Connect alumni program aims to engage, support and activate our extensive NYSF alumni community of over 15,000 alumni by providing professional development and networking opportunities.

NYSF Connect events are held in major cities around the country and online via our webinars. We encourage you to stay connected and get tickets to some of these events!

Events and activities include:

- Alumni events across Australia;
- Exclusive access to webinars featuring some of Australia's leading scientists;
- Multi-day STEM Hubs in capital city locations during school holidays;
- Access to the latest information on job opportunities, graduate programs, scholarships, internships and more;
- Visit some of Australia's leading industry and research sites and meet graduate employees;
- Network with other NYSF alumni and partner organisations;
- Access to events and opportunities provided by NYSF partner organisations;
- Opportunities to volunteer for NYSF and NYSF Partner activities/events.

Subject to the ability to run group events, all dates will be finalised and published after the NYSF Year 12 Program. We'll send you the links to the events via email.

NYSF 2024 STEM HUBS

In 2024, the NYSF will run multi-day in-person STEM Hubs in Sydney, Melbourne, Adelaide and Perth during the April and July school holidays. These visits will build on your NYSF Year 12 experience and broaden your insight into educational and career pathways in STEM.

Information about these activities will be available soon after the conclusion of the Year 12 Program.

Kat (2012) met her future PhD supervisor at NYSF

ROTARY INTERNATIONAL

Rotary is the world's first and largest service organisation. Founded in the USA in 1905, it has expanded to over 1.4 million members in more than 46,000 clubs in over 200 countries. Rotarians plan and carry out a remarkable variety of humanitarian, cultural and exchange programs that benefit people's lives in their local community and throughout the world.

Rotary Clubs throughout Australia support the National Youth Science Forum and several other programs for youth including Global Youth Exchange, Ambassadorial Scholars, Rotary Youth Leadership Awards, Rotary Youth Program or Enrichment and Young Aboriginal Rotary Networks. We encourage you to look into becoming involved in these programs.

NYSF PARTNERS

The National Youth Science Forum partners with a range of corporate, government and university partners. Partnership funding supports various activities and expenses associated with running the NSYF programs throughout the year.

Visit our website to see more about our partners and the valuable contribution they make to our programs.
